Dear

Thank you for your enquiry regarding completing your Instructor Development Course with me. Please find enclosed some important information about the course & its objectives plus a list of PADI IDC and IE dates for 2009. PADI offers the finest Instructor training programs available. The PADI IDC provides a professional learning experience in which you will

learn how to teach diving using the PADI system of diver education. Not only will you learn how to teach in the classroom, pool, and open water environments, you will also learn how to effectively use PADI's teaching aids and instructional support materials.

Once you have completed the PADI IDC, you will be trained and prepared to attend a PADI Instructor Examination, the final step toward your PADI Open Water Instructor Certification. You will also be equipped with an excellent understanding of the diving industry, progressive instructional methods and state-of-the-art diving information. When you have earned your Open Water Instructor rating you will be respected as one of diving's finest and you will be able to take advantage of many exciting opportunities around the world.

Plus because we are one of the few PADI Vocational training centres in the UK you will also receive a nationally recognized Certificate in Scuba Instruction. Should you decide to complete your IDC with us, please send your completed application and deposit to the above address. Please note that as of January 1st 2009 it is a requirement that you are a current EFR Instructor prior to completing the IDC, we can arrange this at the start of the IDC or ahead of time please contact us for more information.

Yours sincerely

Gary Mawston (Course Director)
